Date: October 1, 2019

Document Number: No document attached

Docket Text:

**Order [non-document] - In their Amended Joint Proposed Scheduling Order (Doc. #: [2691]), both parties expressed concern about the feasibility of taking sufficient discovery and providing the Court with adequate briefing on certification of a class of NAS Baby Plaintiffs within the Court's directed time frame. The Court thus construes the parties' position statements as a joint request for an extension of time, and GRANTS the parties an extension of NOT MORE THAN 4 months beyond their current jointly proposed schedule. The parties are directed to file a new jointly agreed upon proposed scheduling order by 12:00PM on Monday, October 7, 2019. Judge Dan Aaron Polster on 10/1/19. (P,R)**
