Northern District of Ohio**

**In Re: National Prescription Opiate Litigation**

Case Number: 1:17-md-02804-DAP

Date: October 25, 2019

Document Number: No document attached

Docket Text:

**Order [non-document] Defendants have moved for oral argument on several issues presented in their pending motions to dismiss various bellwether cases designated in paragraph 2 of CMO-1 (Docs. [829]; [830]; [831]; [833]; [888]). The Court has discretion regarding whether to grant oral argument. In the cases identified in these motions, the Court feels that the parties positions are adequately briefed and that no oral argument will be necessary for the Court to make determinations. The Court can, and may at a later date, direct additional briefing should the need arise. Therefore, the above referenced Motions for Oral Argument are DENIED. Judge Dan Aaron Polster on 10/25/19.
